Mr. Raja Haddad

Starmanship and Associates

Dear Mr. Haddad,

It was a great pleasure to have you train our teachers and administration staff who work for a number of Baptist institutions in Lebanon. There is a growing awareness in our community about the importance of training the different categories of our human resources and contributing to the development of their skills, be it technical or communication or leadership or other.

The group members who participated in the three days endeavor appreciate what they have received and seem to be more eager to apply the concept of the seven habits in their daily life. They are also hoping to be exposed to more areas of training and development.

Finally, I have to mention that in addition to all new concepts we have learned, the three days were fun and excellent time for more orientation and practical training.

Please accept my gratitude on behalf of all the group members.

Nabil Costa,

Executive Director
