Dear Raja

EBN SINA TRAINING/ GOLD OF THE DESERT KINGS

Words are not enough to express our thanks to you and your wonderful team for the very motivating program conducted recently to our people. Excellent material, outstanding setup and very much challenging journey, we have been through; together.

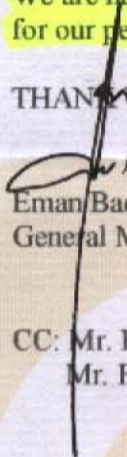

The execution was up to our expectation, and very much matching what we've experienced with Starmanship and its God Father Mr. Raja Haddad.

Gold of the Desert Kings was an overwhelming experience. Competition and time limits were driving everyone to the excellence, and outcomes and debriefing were amazing and so much TRUE.

Go for the Gold, Planning, Maximize and Respect Your Resources are common expressions now at our company, but most important, common practices.

We are happy to confirm that, we are signing up with you very soon, for a program for our people advancement, throughout the years 2007 and 2008.

THANK YOU VERY MUCH

Eman Bader
General Manager
